Librarians travel to the biennial ACRL Conference (Association of College and Research Libraries).

As the premiere academic library conference, we learned a lot and came back with lots of new ideas! Lavery's newest librarian, Christina Hillman, presented a poster with Wright State University colleague, Sue Polanka. Their poster was entitled Reinventing Service Statistics: Connecting Primary Library Services with University Learning Outcomes.

With special thanks to our Faculty...

**Table of Contents Alerts**

Did you know that you can have the table of contents for your favorite journals delivered to you via email?

If you have a favorite journal, go to the publisher’s website to set up an alert. You can also do this through some databases, like EBSCO.

If you would find it easier for the library to set up these alerts for you, please notify Marianne Simmons msimmons@sjfc.edu

**Fun Facts from Lavery Library:**

Did you notice the library seemed extra busy this year?

Your student may have noticed it was hard to find a seat in the library during the month of March!

It was our busiest month with over 13000 students using library spaces for individual and group study, socializing, and all sorts of learning!

Phew! It’s been a busy year teaching, but we love it! So far librarians have recorded teaching over 300 sessions with 6579 participants!
